About US

Shenzhen Hi-Max Technology Co.,Ltd. was founded in 2007, devoting to developing and manufacturing in this industry for years. Our main products range from Professional military flashlight, Diving light, Night Fishing light, Camping light, Wild Life-saving flashlight, Miner/Bike light, HID Search light. We are have partners in South American, UK, and Europe, and Australia. Our mission is provide our parnters "high quality" rational price service. We will develop concerned new products continually.

Diving light / X5

Specification			
Lumen	1300lm	Switch	Magnetic ON/OFF
Runtime	about 120min	Reflector	SMO Aluminum Alloy
LED	CREE XM-L2 U2	LED Color	white 6500~7300k
Irradiation Distance	200m	Body Color	black
Waterproof	100m	Size	143*42*32mm
Battery	18650*1PC	Weight	185g

X5 dive light has beautiful shape and three hand hold grooves.Efficient luminance convert ratio makes it 1000-1200 lumens maximum,head twist on/off switches .It feels solid in the hand, very robust. It seems like you could throw this light down the street and pick it up and it would function like normal.

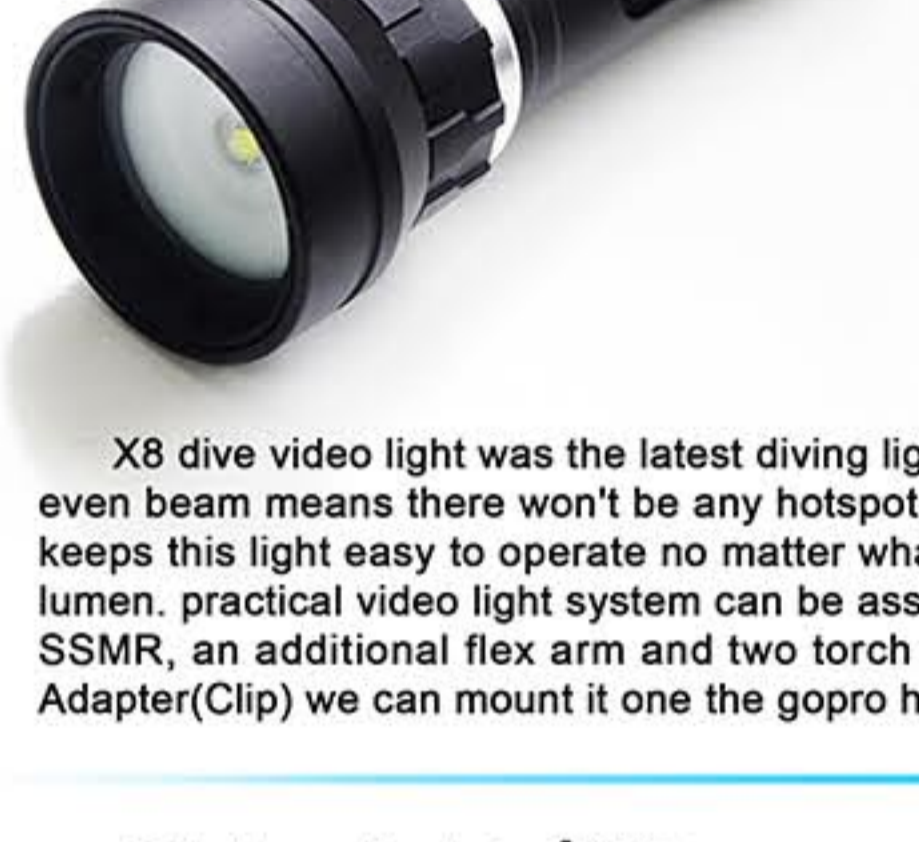

Diving light / X7

Specification			
Lumen	3000lm	Switch	Magnetic ON/OFF
Runtime	120min(26650*2) 60min(18650*2)	Reflector	SMO Aluminum Alloy
LED	CREE XM-L2 U2	LED Color	white 6500~7300k
Irradiation Distance	200m	Body Color	black
Waterproof	150m	Size	225*64*36mm
Battery	18650/26650*2PC	Weight	600g

X7 was the brightest diving light in X series , adopted XM-L2 3*U2 .Maximum 3000 lumen, Designed for the purpose of most divers and available for 2pcs 26650 batteries. More importantly I usually saw 2 o-rings on most dive lights,But this one has 3 o-rings on its's tail cap. Aircraft grade material and hard anodizing.And the matched case was impact resistance and waterproof.

Underwater photography Model X8

Specification			
Lumen	860lm	Switch	Magnetic ON/OFF
Runtime	about 120min	Output	2.75~4.2V
LED	CREE XM-L2 U2	LED Color	white 6500~7300k
Irradiation Distance	300m	Body Color	black
Waterproof	100m	Size	128.5*42*32mm
Battery	18650*1PC	Weight	175g

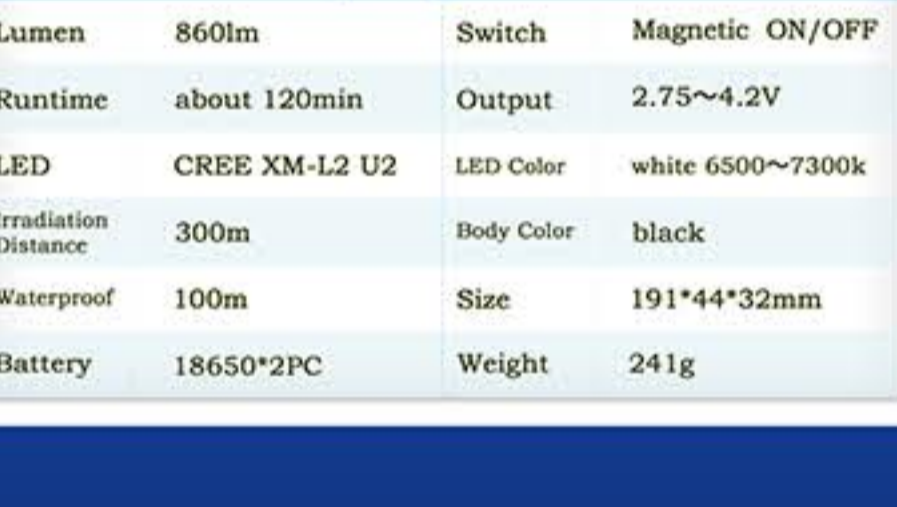

X8 dive video light was the latest diving light for underwater photography.120 degree smooth even beam means there won't be any hotspots showing up in your images! A simple twist on/off keeps this light easy to operate no matter what the situation is.CREE XM-L2 U2 bulb over 1000 lumen. practical video light system can be assembled using an SSFL (comes with an FA30 arm), SSMR, an additional flex arm and two torch adapters mounting .We have desigend matched Adapter(Clip) we can mount it one the gopro holder.

Diving light / X6

Specification			
Lumen	1500lm	Switch	Magnetic ON/OFF
Runtime	about 120min	Reflector	SMO Aluminum Alloy
LED	CREE XM-L2 U2	LED Color	white 6500~7300k
Irradiation Distance	200m	Body Color	black
Waterproof	100m	Size	220*50*30mm
Battery	18650*2PC	Weight	340g

Underwater photography Model X9

Specification			
Lumen	860lm	Switch	Magnetic ON/OFF
Runtime	about 120min	Output	2.75~4.2V
LED	CREE XM-L2 U2	LED Color	white 6500~7300k
Irradiation Distance	300m	Body Color	black
Waterproof	100m	Size	191*44*32mm
Battery	18650*2PC	Weight	241g

Diving light / H5

Specification			
Lumen	1100lm	Switch	Slide ON/OFF
Runtime	about 120min	Reflector	OP Aluminum Alloy
LED	CREE XM-L U2	LED Color	white 6500~7300k
Irradiation Distance	200m	Body Color	black
Waterproof	100m	Size	250*48*32mm
Battery	18650*2PC	Weight	265g

Diving light / H6

Specification			
Lumen	1100lm	Switch	Slide ON/OFF
Runtime	about 120min	Reflector	OP Aluminum Alloy
LED	CREE XM-L T6	LED Color	white 6500~7300k
Irradiation Distance	200m	Body Color	black
Waterproof	100m	Size	250*48*32mm
Battery	18650*2PC	Weight	260g

Diving light / H8

Specification			
Lumen	800lm	Mode	high-med-low-strobe
Runtime	about 60min	Reflector	OP Aluminum Alloy
LED	CREE XM-L2 T6	LED Color	white 6500~7300k
Irradiation Distance	300m	Body Color	black
Waterproof	100m	Size	143*38*30mm
Battery	18650*1PC	Weight	165g

H8 was in a portable size with deeper and narrow focusing, Throw more focused beam. This one is more suitable for senior diver or as a standby diving light (personal preference). It has 3 modes with mode memory. Hi/Med/Strobe.To change modes-with the light ON just twist off and back on to cycle through all the modes switches, and has 3 seal O-rings on its tail thread. Added fins increase the surface area and can radiate the internal heat to the water passing by. Since water is a more efficient conductor than air, it can better dissipate heat away from the light when the LED is properly heatsinked . Waterproof over 100 meters .sea water resisding and high quality. For Cave diving , catching fishes , Waterproof over light. Also great for use during the day.

Diving light / H9

Specification			
Lumen	1000lm	Mode	high-med-low-strobe
Runtime	120min(26650*2) 60min(18650*2)	Reflector	OP Aluminum Alloy
LED	CREE XM-L T6	LED Color	white 6500~7300k
Irradiation Distance	300m	Body Color	black
Waterproof	150m	Size	205*48*35mm
Battery	18650/26650*2PC	Weight	385g

Diving light / H01

Specification			
Lumen	3500lm	Mode	high-med-low-strobe
Runtime	about 180min	Reflector	SMO Aluminum Alloy
LED	CREE 3*XM-L2 U2	LED Color	white 6500~7300k
Irradiation Distance	300m	Body Color	black
Waterproof	150m	Size	75.5*66mm
Battery	26650*3PC	Weight	827.8g

Diving light / HD10

Specification			
Lumen	3100lm	Mode	high-med-low-strobe
Runtime	about 180min	Reflector	SMO Aluminum Alloy
Bulb type	HID xenon-lamp	Voltage	12.6V
Irradiation Distance	300m	Body Color	black
Waterproof	100m	Size	257*73*78mm
Battery	built in 6600mAh battery	Weight	1.56kg

 High Quality • Max Service

Glove

Premium quality soft 'goodman' style mount for handheld dive lights, allowing you to mount your light on the back of your hand and thus free your hand for other tasks. The soft design is much more comfortable than a traditional metal handmount and much easier to adapt to handheld lights as it uses a universal attachment method. A nice feature is a place to easily attach a small bolt snap, just like some divers prefer when stowing a metal goodman.

Torch Adapter

Turn your IFL WA Wide Angle, IFL WA Zoom or ITAC Tactical torch into an underwater video light. Adapter allows torch to be attached to your flex arm.
