

Seal Check

Verify housing integrity *before* entering the water

Seal Check represents the next level in Gates legendary reliability by allowing confirmation of housing integrity *before* entering the water – virtually eliminating water intrusion as a source of downtime.

History reveals the three top reasons for floods are damaged/compromised o-rings, rushed setup and unfamiliarity with equipment. With **Seal Check** there is peace of mind ahead of time. **Seal Check** is available with an optional self-install kit for non-Gates housings, too.

Be assured your Gates housing is sealed and ready to capture your finest images 24/365. There is no need to take a chance... just take a *Gates!*

Key Features

Seal Verification. As the name implies, Seal Check confirms seal integrity before entering the water.

Portable. Seal Check is contained in a small Pelican 1200 case for compact travel.

Convenient and easy, Seal Check quickly identifies housing integrity in a few short minutes.

Peace of mind ahead of time. Be reassured your housing is sealed and ready to capture your finest images.
