Nikon D800 (April)

Canon EOS 1DX
Canon EOS 5D MKIII

Sony NEX 5N housing (March)
Sony NEX 7 housing (April)

Panasonic GF2 housing (on stock)
Pansaonic GF3 housing (March)
Panasonix GX1 housing (March)

Video housing, one for all. (March)

This fantastic videohousing is a universal housing, which fits for 80% of all camcorders on the market.

If it is Panasonic - Canon - Sony - Samsung the all fit in this housing.
Also Sony and Panasonic 3 D models.

You can use all camcorder which are able to work with infrared remote control !!!

It has a inbuilt monitor (great resolution), a adjustable camerabase, a exchangeable port system, SUBAL 3. So you can use all Subal ports in size 3, as well as all domeports. It has a special remotegrip. In this grip it can learn up to 7 functions.

So this new SUBAL housing is the only universal video housing on the market with the possibility to use domeports.

And don't forget about our great new products from 2011:

Focus extensionring for manual focusing at video mode in SLR housings
30° glas prisma for ND7000

Strobecase for Nikon SB-910
Ikelite adapter for Subal strobearm
External Video monitor with release shutter
