WOLF-EYES®

DINGO 21 HEADLAMP

UNIQUE FEATURES

ASPHERIC LENS FOCUSING SYSTEM

- Focused beam for long distance and defocused beam for close-range lighting.
- Focusing by pulling / pushing the bezel.
- Smooth beam shape without hot-spot.

ONE HAND CONTROL OF MODES AND LIGHTING ANGLES

- Rotate the bezel to switch on and reach 5 different modes in sequence of L (2%) → ML (10%) → M (50%) → H (100%) → Strobe (1Hz).
- Move the bezel vertically to adjust the lighting angle.
- Easy to operate even when wearing heavy gloves!

USB RECHARGEABLE

- Works on 1 x HDB-217 Li-ion Power Battery 5300mAh (21700 type).
- With a type-C USB charging port on the battery housing: no need to take out the battery for recharging.

TWO-LENS DESIGN

- Lens can be screwed off and replaced.
- Telephoto lens & Wide angle lens included in set: suitable for different lighting needs.
